

Move in faster

Satisfy your security deposit requirement and save your cash

1 Apply to move in to your home

Ask your property about Rhino when you apply to move in. They'll invite you to sign up directly via email. Signing up for Rhino takes less than a minute.

2 Start your Rhino application

Signing up for Rhino is simple, just follow the link in the email invitation from your property. You'll answer a few questions that'll help us provide you with your personalized Rhino price.

3 Finish signing up

Complete enrollment and pay for your first month of Rhino protection. When you submit your first payment, you'll activate your Rhino policy and successfully satisfy your deposit requirement.

4 You're ready to move in!

We'll let your property know that you've satisfied your deposit requirement. Similar to a traditional cash deposit, you're still responsible for excessive damage and unpaid rent.

Next steps with Rhino

We personalize your price

Every renter gets a Rhino policy personalized to their unique situation. We ask for basic personal information to determine the protection you need, and make sure it's affordable.

You get flexible payment

You can pay for your Rhino policy monthly or in full. When you make your first Rhino payment, we'll take the place of your security deposit and you're free to move in.

We communicate with your landlord

We handle all of the paperwork and provide your leasing team with an online platform where they can find, edit, and confirm your Rhino information.

You have the same resident requirements

Rhino protects your home just like a security deposit does. If you cause excessive damage or don't pay rent, a claim can be submitted.

We protect the unit

Rhino isn't renters insurance. Renters pay for protection of their unit similar to a deposit, not for protection of their personal items.

You work with us if accidents happen

We work with both sides on every issue, but if a claim is submitted and accepted on your policy, you'll be responsible. We'll work together to find the best payment option.
